Directions:

Waterfall Glen Forest Preserve at Argonne National Laboratory Reservation, NE of Lemont

Survey Information:

First Observation: 1988

Survey Date:

Last Observation: 2000-03-12

Eo Type:

Eo Rank: NR

Eo Rank Date:

Observed Area:

Comments:

General Description: deep (9.1m), relatively clear water bordered on north by extensive areas of shallow water supporting dense stands of emergent vegetation with log piles used as haul outs

Comments: center of fall otter activity; this area shows consistent usage

Protection
