

# NATURESERVE

## NETWORK VAN TOUR

Sponsorship Package

---

*“Just as connected habitats support resilience of wildlife in the face of a changing environment, connectivity within the natural heritage network encourages the sharing of ideas and information that results in better science. With people feeling more isolated than ever, this trip could not come at a more crucial time to reinvigorate the ties of our network that provides the backbone of conservation in our nation.”*

Sean T. O'Brien, Ph.D.  
President & CEO, NatureServe

# Why We're Taking This Journey

Sean O'Brien, President & CEO of NatureServe, is traveling across the US and Canada in his trusty steed, the Van Humboldt. Along the way, he will meet NatureServe Network partners in each state and province to see data collection in action while visiting ecosystems that support rare and threatened species. The tour provides a unique opportunity to evaluate the relationships between people and the natural environment years since the start of the pandemic, as well as to connect science with stories about the future of biodiversity conservation throughout North America.

With one million species at risk of extinction, there's no time to waste. We're hitting the road and invite you to join the adventure.

# What You Can Do to Help

Now, more than ever, we're looking to tell stories that bring us together. The NatureServe Network Van Tour is an expedition that creatively highlights how we use information to sustain biodiversity through technology, collaborative science, and local expertise.

We're asking you to join us by investing in a sponsorship.

We believe our mission resonates with your audience and that, together, we can protect our planet's precious biodiversity.

# How You Will Benefit

As your marketing partner, NatureServe takes our sponsorship agreement very seriously. You make an investment into conservation, and in return we promise to deliver a unique opportunity to protect biodiversity.

## **CONNECT WITH YOUR CURRENT CUSTOMERS**

Customers are becoming increasingly selective about the social responsibility measures taken by companies they do business with. What better way to communicate your corporate consciousness than by sponsoring an event that shows your commitment to biodiversity conservation?

## **TELL YOUR STORY AND WIN NEW CUSTOMERS**

With our acknowledgement opportunities, your organization will be featured alongside that of NatureServe and the NatureServe Network Van Tour. Opportunities to showcase your brand across some of the most impactful biodiversity experts await.

## **GIVE YOUR STAFF SOMETHING TO SMILE ABOUT**

Responsible companies like yours know how important it is to have an inspired workforce. Your commitment to biodiversity presents an opportunity for your network to feel connected to this cause. There are many creative ways to include your team on the journey. Let's brainstorm together.

# Added Value

For nearly 50 years, NatureServe has been the authoritative source for biodiversity data throughout the Americas. To protect threatened biodiversity, NatureServe works with conservation professionals to collect, analyze, and deliver standardized biodiversity information. As a sponsor, your company will gain exposure across the NatureServe Network. The value we bring to the table includes:

## SOCIAL MEDIA EXPOSURE

We have nearly 35k followers on Facebook, over 4k on Twitter, and more than 5k on other social media platforms. We're highly skilled at engaging with and leveraging those connections for your benefit.

## MEASURABLE IMPACT

You want to know your sponsorship dollars are working to promote on-the-ground efforts for biodiversity conservation. We provide detailed, biannual statements outlining the impact that your support generates.

## UNIQUE MARKETING CHANNELS

Because we have the longstanding trust of our community, we have access to valuable marketing channels, including over 100 organizations and 1,000 conservation scientists throughout North America.

# Your Sponsorship Team

**Samantha Belilty – Marketing & Communications Director**

Sam is a marketing professional with nearly ten years of progressively responsible experience in communications, branding, event planning, public relations, and project management. In her role at NatureServe, she helps to secure media partnerships, manages the teams branding and digital marketing efforts, and leads the department in enhancing the organization's overall brand awareness.

**Melissa Howison – Development Associate**

As the Development Associate, Melissa helps create investment opportunities that sustain NatureServe's groundbreaking biodiversity work. In her free time, she can be found hiking a new trail, trying a new restaurant, or reading the latest thriller novel she picked up from the local library.

**Alli Kenlan – Digital Marketing Specialist**

Alli oversees NatureServe's social media presence across platforms, from daily posts to longer term campaigns and content development. She manages NatureServe's website, designs mass emails, and produces digital content such as videos, podcast episodes, and graphics. She has been at NatureServe for four years and is based out of Raleigh, North Carolina.

**Jaclyn Aliperti – Science Communications Specialist**

Jaclyn is an ecologist with over ten years of experience conducting research, managing projects, and communicating science to varied audiences. Jaclyn transforms the work of NatureServe scientists into written and visual stories, from Op-Eds and press releases to short films. She manages logistics and delivers creative content for the NatureServe Network Van Tour.

# Sponsorship Options

Ensure the loyalty of your existing customers and resonate with new ones - all while you help us help protect endangered species and ecosystems.

**Title Sponsorship: \$25,000**
